ONE OF MY
DRIVE
BOY!
CALL UP
TO
LARGE
TWO
ERE
TELY.

WELL...WHAT
DO YOU THINK,
MOTHER?

WHY
DARLING, WHAT
A QUESTION!
OF COURSE
WE'RE GLAD TO
HAVE MR. EL DORADO
ESCORT US IN HIS
CAR.

THIS IS JOHN
WANNING! I MEAN
WORD ABOUT THE
ANDS AND ALL THAT!
ABOUT A DATE
TONIGHT?

WHAT A MAN! GAVE UP THE
ANCE TO BE PRESIDENT AN'
RYTHIN! THAT MUST BE WHAT
MA MEANS WHEN SHE TALKS
UT STICKIN' 'EM
'DEALS!

YOU KNOW
YOUR AUNT'S, BABY
...AND INCIDENTLY,
YOU AIN'T SO
DUMB!

THAT LIE DIDN'T
SEEM TO GET
OVER SO GOOD!

TODAY'S NEWS TODAY

ST. LOUIS, MO. FRIDAY, AUGUST 9, 1930.

VOL. 82, NO. 337.

WALL STREET
SWIFT RALLY,
THEN STOCKS
TURN LOWER,
CLOSE HEAVY

Many Bears Take Profits on Opening Decline Bidding Actively for Shares—Renewed Pressure Felt Later.

LARGEST SATURDAY TRADE SINCE JUNE

Several Important Shares Close a Point or Two Net Lower and a Few Losses Run From 3 to 5 Points—Gains of 1 to 3 in List.

By the Associated Press.
NEW YORK, Aug. 9.—The stock market, enfeebled by yesterday's ending of selling, ended the week in a wishy-washy manner today. Many bears took their profits, which caused a rather swift rally for a time, as they held actively for the shares which they had sold short at higher levels. But the rally soon played out, and stocks sold off under renewed pressure on the last 15 minutes. Several important shares closed a point or two under yesterday's final levels, and a few losses ran from 3 to 5. A sprinkling of shares closed 1 to 1 1/2 higher, with American Telephone the strongest feature.

The market opened without the sliver of selling which experienced yesterday would have caused in a market with large public participation, but selling grew active during the first hour, as no signs of organized support appeared. By 11 o'clock, net losses of 2 to 6 points embraced a wide range of shares. Trading was in large volume during the first half hour, the turnover exceeding 500,000 shares. The day's total sales of 1,508,440 shares were the largest for a Saturday since June.

Bear Participation Large.
Corporate news was still largely unfavorable. It was reported that Youngtown Sheet and Tube would cut operations from 60 to 55 percent of capacity next week. Brown Pence decreased its annual dividend rate from \$2.40 to 60 cents.

While professional bear selling appeared to have been the impelling force of the decline, some commission houses acknowledged that there had been some general liquidation. The extent of the bear participation, however, was evident in the fact that at least 100 issues on this market on the curb were leaning "flat," which means that the trader who borrows stock to sell short is so anxious to get it that he is willing to forego the usual profit on the loan. He deposits with the lender.

U. S. Steel Is Lower.
The action of J. I. Case was indicative of the general trend. The stock sold off 1/2, converted its loss into a gain of 1/2, then showed a loss of 2. It closed down 1/2. Shares off a point or two at the finish included American Can, American and Foreign Power, U. S. Steel, Sears Roebuck, North American, Warner Bros., and Byers. New York Central, Standard Oil, and Columbia Carbon lost 1/2. Diamond Match and Michigan Steel lost about 1/2.

Radio and General Electric, however, closed about steady, and in addition to American Telephone, stocks to close higher included American Water Works, Gillette, Foster Wheeler, Southern Railway and Union Pacific, up about 1 to 2 points.

In the commodity markets, wheat sagged about a cent, reflecting forecasts of showers. Corn and cotton closed about steady. The foreign exchanges were quiet and steady, with Sterling Cable at \$4.97 1/2.

HEAT HATCHES NEST OF EGGS
Chicks Come Through Week After Hen Quits Job.

JOHNSTON CITY, Ill., Aug. 9.—A hen belonging to John Hobbs left her nest of eggs last week on account of the heat. Yesterday the eggs hatched under the torrid heat of the hen house.

At a Marion service station, attendants poached two eggs in a skillet placed under the sun's rays. Williamson County experienced its hottest day with thermometers registering from 105 to 114.

BRITISH BEAT OFF INVADING TRIBES AROUND PESHAWAR

Danger Past at Indian Frontier City and Afridis Are Dispersing, Simla Reports Declare.

SEVEN MEN KILLED BY PLANE BOMBS

Advance Guard of 1000 Routed Within Mile of Town by Air Force—Other Skirmishes.

By the Associated Press.

SIMLA, India, Aug. 9.—Reports from Peshawar, northwest frontier city around which a horde of savage Afridi tribesmen is encamped, indicate the city is out of danger and the tribal army is dispersing. The mass attack on the military cantonment or city which had been expected last night did not develop, although small groups have been engaged by British ground forces since Peshawar was bombed by military airplanes. One dispatch says 1000 warriors advanced within a mile of Peshawar Thursday, but were attacked by British and seven Afridis were killed by aerial bombs. Other small groups were dispersed by gunfire and all retreated to Khajuri plain, where the main force was encamped. The Afridis are fierce hand-to-hand fighters but the military airplane is a new weapon to them.

An official communique issued today gives the action more in detail. It says that airplanes operated against the hostile force in the Lower Bara Valley and at the western end of Khajuri plain Wednesday and Thursday.

On Thursday night some detachments of tribesmen moved forward to the area south of Bara Fort and various parties engaged with military and frontier constabulary pickets. A few men were killed.

Small parties totaling several hundred penetrated the Peshawar district, concealing themselves in the area south and southeast of the city. Because of bombing by the Royal Air Force, part of the main tribal force evacuated the caves west of Khajuri plain and also moved to other caves south of the Bara River.

Late yesterday afternoon one party was sighted in a tower three miles northeast of Bara Fort. When British cavalry approached the hillmen vacated the tower and took a position in the nearby gardens. They were shelled out by the British.

Officers think that the scattered advance parties diverted the Government forces sufficiently, the main body would have attacked last night.

40 Achikzai Raiders from Afghanistan Dispersed. PESHAWAR, India, Aug. 9.—Yesterday a band of about 40 armed Achikzai raiders crossed the frontier from Afghanistan and raided the British district of Peshawar. They carried on raiding and looting until dispersed by a British detachment from Peshawar Fort, escaping then over the border.

I. C. C. AUTHORIZES RAIL RATE CUTS IN DROUTH AREAS

Continued From Page One.

Hyde will supplement Stone's reports with any additional advice from the Weather Bureau as to prospects of relief.

President Hoover yesterday called on the Governors of the most seriously affected states to meet with him here next Thursday, to determine a method of bringing into play all available state and county agencies for relief with the cooperation of various Federal branches and the Red Cross.

Among the Governors who immediately accepted the President's invitation were Cullford of Missouri and Emmerson of Illinois. In announcing his decision to call the Governors, the President said preliminary reports indicated 1,000,000 farm families were affected, together with livestock amounting to 12 per cent of the total animal population of the country. In a lengthy statement, Mr. Hoover said the situation was one to cause a great deal of concern.

Text of President's Statement. The text of the President's statement follows:

"As a result of conferences of the last few days, which embrace the Cabinet, members of the Farm Board and the Farm Loan Board, together with Presidents Thompson, Hauber and Huff of the farm organizations, I have decided to ask the Governors of the states most acutely affected by the drouth to meet with me in Washington next Thursday in order to consider definite plans for organization of relief.

"Such organization will need first to be undertaken by the states, and through them the counties, with whom the various Federal agencies can co-operate. I now have the preliminary survey of the Department of Agriculture.

Ex-Congressman Held as Moonshiner

MANUEL HERLICK, Former U. S. Representative from Oklahoma, who was arrested Thursday in St. Mary's County, Maryland, by prohibition agents on a charge of operating a still. Officers said that Herlick was operating the still at the time of his arrest. Herlick was elected to Congress in the "Harding Landslide" of 1920, but was defeated for re-election. His constituents while in office kept him constantly before the public.

ture of the situation as of Aug. 1. It shows that the shortage of animal feed crops is most acute in Southern Missouri, Northern Arkansas, Southern Illinois, Southern Indiana, Southern Ohio, Kentucky, Northern West Virginia and Northern Virginia, with spots of less dimensions in Montana, Kansas, Iowa and Nebraska—the latter three states being the less acutely affected.

"I shall ask the Governors of those states to attend. The feed crops in some other states are also reduced, the amount of ultimate reduction depending upon rain during the next two weeks. It may develop that we shall need to ask the Governors of one or two other states also to attend.

"In any event in the most acute areas we should now lay the foundation for effective local and state organization, the object of which is to prevent suffering amongst farm families deprived of support, and to prevent the sacrifice of livestock more than is necessary.

1,000,000 Families Affected. "In the acutely affected area which I have mentioned there are approximately 1,000,000 farm families, who possess approximately 1,250,000 horses and mules, 4,000,000 cattle and 12,000,000 hogs and sheep.

"This represents approximately 12 per cent of the animals in the country. Obviously the individual farmers in the acute area are differently affected. Their losses run all the way from a few per cent up to their entire animal feed crops. The actual numbers who are in distress will, therefore, be less than those given figures.

"Nevertheless, there will be a great deal of privation among families in the drouth areas due to the loss of income and the financial difficulties imposed upon them by the loss of their animals over the winter.

"The American people proudly take care of the necessities of their countrymen in time of stress or difficulty. Our first duty is to assure our suffering countrymen that this will be done; that their courage and spirit shall be maintained, and our second duty is to assure an effective organization for their consumption.

Request to Red Cross. At the same time the chief executive asked Acting Chairman Eicknell of the Red Cross to have his organization prepare to relieve any human suffering.

More detailed information on conditions in the drouth areas is expected to arrive from agents of the Department of Agriculture in time for study Thursday. The livestock affected was placed at 2,250,000 horses and mules, 4,000,000 cattle and 12,000,000 hogs and sheep.

At the conference with the 12 Governors will be officials and experts of the Agriculture Department, the Farm Board and other Federal agencies.

A report of Secretary Hyde to the President emphasized that there was no serious problem of human food supply at this time, in view of the ample wheat crop, good potato prospects in the commercial sections of the Northern states and a fair rice crop. Bean acreage, he pointed out, is mostly under the drouth area, while the winter vegetables from Southern states will not be planted for some time.

Canning Crops Unharmed. Canning crops: Tomatoes, peas and beans were also excluded largely from the drouth damage. Small fruit crops, the Secretary said, did not indicate a shortage, but considerable individual hardship was expected to result from destruction of drouth areas. Plans for the home consumption during the fall and winter.

Discussing the feed situation.

MISSOURI FARM LOSS ESTIMATED AT \$110,000,000

U. S. Expert Reports Shortage of Feed for Livestock Due to Drouth—Crops Burned Up.

By the Associated Press.

KANSAS CITY, Mo., Aug. 9.—The drouth situation in Missouri was described yesterday as most critical and it appeared that many farmers would need immediate help, with crop and livestock losses estimated at \$110,000,000 to \$135,000,000 and increasing \$1,000,000 daily. E. A. Logan, statistician for the United States Department of Agriculture, said a large part of Southeast Missouri and four counties in East Central Missouri need aid in obtaining feed for livestock, if the farmers are not to be forced to sell their stock immediately.

In Illinois, Gov. Emmerson said it was too early to form a definite estimate of the damage or the amount of assistance that would be needed. All truck gardens and pastures have been burned out in Central and Southern Illinois and corn severely damaged throughout the State.

Senator Arthur Capper is conducting an investigation of conditions in Kansas, but was unprepared to say whether any immediate relief was necessary. The State Board of Agriculture reported no appeals had been received.

N. J. Holmberg, Minnesota Commissioner of Agriculture, said it was too early to talk about relief measures in that State. The situation, he added, was not serious enough to warrant any immediate action.

Reports from Wisconsin were that the drouth had hit only in spots, doing little damage, but that conditions would be serious in two weeks if no rain falls.

Iowa officials are taking no drouth action. C. D. Reed, Federal meteorologist at Des Moines, said 80 per cent of the State had been benefited by recent rains but 20 per cent was lost.

The use of water has been curtailed at Lincoln and Beatrice, Neb., and Gov. Weaver appealed to the Department of the Interior to release water from the Pathfinder Dam in Wyoming for irrigation between Kearney and North Platte, Neb. The Nebraska situation has been relieved slightly by rain.

Harry R. Cordell, president of the State Board of Agriculture, said no relief measures were contemplated in Oklahoma and there had been no requests for assistance. He said little corn would be harvested and pasture and hay crops suffered severely.

Conditions in Texas are not considered severe enough to justify Government aid, said George B. Terrell, Commissioner of Agriculture.

The drouth damage in Kentucky was estimated today by the Courier-Journal in excess of \$100,000,000. State and county officials are collecting data to determine what they should be taken to relieve stricken areas.

BUILDINGS BLOWN DOWN BY WINDSTORM NEAR MACON, MO.

Area Five Miles South of City Damaged; Heavy Rain Falls at Excess.

Special to the Post-Dispatch. MACON, Mo., Aug. 9.—A violent windstorm visited a section five miles south of here last night, blowing down some small buildings and trees. John Paris' home was twisted from its foundation and the family fled to the cellar. Several outbuildings were wrecked and a big barn on the place was blown down. Two henhouses and a new smokehouse were blown away.

Several buildings on the John Bohn place on Highway 12 were wrecked and the residence badly damaged.

At Excello there was a heavy rain and high wind, but no damage was done. The windstorm extended as far south as Jacksonville.

SIX KILLED IN MINE CAVE-IN

16 Others Injured in Shaft Near Pottsville, Pa.

By the Associated Press. POTTSVILLE, Pa., Aug. 9.—The bodies of eight miners were taken from the debris of a fall of rock in the Gilberton colliery of the Philadelphia and Reading Coal and Iron Co. today. Two of the 16 men injured were reported to be in such a serious condition that they may die.

Rescue workers said all members of the party of workmen who were making repairs in preparation for a resumption of work had been accounted for. The party numbered 22.

SECRETARY HYDE'S SURVEY OF EFFECT OF THE DROUTH

Head of Agriculture Department Declares Damage to Human Food Supply Is Not Serious.

By the Associated Press.

WASHINGTON, Aug. 9.—President Hoover has made public the report from Secretary of Agriculture Hyde summarizing drouth conditions as of Aug. 1. Part of the report follows:

"Considered in its broader aspects, the 1930 condition does not present a serious problem of food supply for the nation. The winter wheat crop already harvested is ample. The spring wheat crop, while it has undoubtedly deteriorated, perhaps as much as 10 per cent during the month of July, should still be nearly equal to domestic food requirements. While the crop of potatoes in the intermediate states is not large, the late crop of commercial sections of the Northern States gives promise of a fair to good yield.

"The rice crop has not been seriously affected. Most of the acreage of cotton has been in the drouth area. The winter supply of fresh vegetables from Southern sources will not be planted for some time. The crop of canning tomatoes, while short, is not seriously so.

"The crop of canning peas has already been harvested and was produced north of the drouth area. The early crop of canning beans was only fair; the late canning crop is produced outside the drouth area.

"Fruit crops are not large, but are still small enough to constitute a shortage, particularly since the California and other Pacific fruit crops give good promise. However, in the drouth area, the near failure of farm gardens and other crops grown for home food supply for the fall months and winter is causing want and hardship to many individuals.

"Inadequate feed for stock. The critical aspect of the drouth situation lies in the inadequate production of feed for livestock in certain areas of the country. For the United States the outlook late in July points to a production of about 90 per cent of an average crop of the feed grains—corn, oats, barley and grain sorghum; about 85 per cent of an average production of hay, or a combined feed production of approximately 88 per cent.

"For the country as a whole prospective feed supply at this date considered by itself does not appear to be particularly alarming. But it is steadily becoming indicated on the maps attached to this report.

"A further serious aspect of the situation is the fact that pastures have been unusually short in these areas and are steadily becoming worse and that farmers who did and will produce some feed grain and forage have been compelled to utilize it for summer feeding, thereby depleting their supplies for the coming winter.

"An analysis by counties indicates that up to the present time the situation has not become critical in the more important livestock producing areas of the country. Probable Production This Year.

"In constructing the maps attached hereto an allowance for probable deterioration during the month of July on the basis of deterioration in former hot, dry months of July has been made for each state. In making this study there were available maps furnished by the Weather Bureau on the rainfall from March 1 to July 25 as a percentage of normal rainfall. It is probable that the production of feed grains in each state in 1930 has been reduced to a single figure expressed as a percentage of the five-year average, 1924 to 1928. A similar calculation was made for hay and for feed grains and hay combined.

"Lines have been drawn on the map which indicate in a rough way the areas most seriously affected. The maps indicate the portions of the country in which the production will be short this year. There are only four sections in which it appears that production will be average or better. These are the New England States; a small segment of the South Atlantic Coast; a territory and adjacent portions of South Dakota, Nebraska and Iowa; and Arizona.

"Two sections of the country will apparently have only about 80 per cent of an average production of feed grains and hay combined.

"Elsewhere livestock numbers are below average by a small percentage except in isolated cases, such as Oklahoma, Mississippi, Nevada, Louisiana and Florida. Of these states only Nevada is an important livestock producing State.

"The coincidence of relatively low livestock numbers and low feed production in the Montana, Wyoming area and in some of the Middle Atlantic states indicates the probability of some liquidation of sheep and cattle in the former area and dairy cattle in the latter.

"The extremely low probable feed production coinciding with only moderate declines in livestock numbers in the Ohio-Mississippi River Valley drouth area, indicates the probability of distress marketing which will probably take the form of culling dairy heifers and sheep flocks and the early marketing of hogs, accompanied by the failure to take the usual numbers of stocker and feeder cattle.

"There is a possibility that South Dakota, Nebraska and adjacent portions of Minnesota, Kansas and Iowa will be in position to take some extra stocker and feeder cattle.

IMPORTANT SCHEDULE CHANGES

Effective Noon Sunday, August 10, 1930

ILLINOIS CENTRAL

No. 211—Franklin County Limited, formerly leaving St. Louis at 6:20 P. M., discontinued.

No. 212—Franklin County Limited, formerly arriving St. Louis 8:55 A. M., discontinued.

No. 207—Leaving St. Louis 4:35 P. M. Will carry passengers for Belleville, New Athens, Marissa, Centerville and points between Belleville and Benton, Ill.

No. 206—Arriving St. Louis 10:20 A. M. Will handle passengers from above points.

F. D. MILLER, Assistant General Passenger Agent

ILLINOIS CENTRAL

By CALVIN COOLIDGE

(Copyright, 1930) PLYMOUTH, Vt., Aug. 9.

BECAUSE of an endless struggle against the elements for the necessities of existence, it is natural to place great emphasis on material prosperity. While that attitude is proper and wise, we still should keep in mind that wealth is not an end, but a means. We need it only for the use we can make of it. The real standard of life is not one of quantity, but of quality; not of money, but of character.

Some day a sufficient organization, balancing productive output and consumptive need, will give us economic emancipation. But we have not yet perfected the formula. To blame the Government or business for all present imperfections is like blaming Washington for lacking railroads, or Lincoln for ignoring aviation. Meantime, we must live and learn. If we have unemployment, it must be remedied; if we have destitution, it must be relieved.

But the great realities do not depend upon prosperity. Getting a living is not the most important part of life. We can be just as loyal to our country, just as devoted to our home, just as faithful to our religion, without great earthly possessions. Even in charity, the widow's mite still outranks the greatest foundations of the merchant princes.

CALVIN COOLIDGE.

(One of a series of daily dispatches written for the St. Louis Post-Dispatch and other newspapers by the former President of the United States.)

weather conditions should be average subsequent to Aug. 1. These are a part of Montana, and a segment paralleling the Ohio River from Pennsylvania to its junction with the Mississippi, and on down the Mississippi to the Gulf. A somewhat wider band on either side of this segment apparently will have from 50 to 60 per cent of an average production. The balance of the country apparently will fall within the range of 80 to 100 per cent.

Condition of Pastures. "An interpolation of the condition of pasture, upon which the livestock are normally dependent for a considerable portion of their feed during the summer months, was made in a manner similar to that made for feed grains and hay. The interpolation for August was consolidated with the reported condition figures for June 1 and July 1 to arrive at a composite of pasture conditions for the two-month period of June and July.

"As might be expected the areas of deficient pasture roughly coincide with the areas of prospective short feed production. In parts of these areas it is doubtful whether the rainfall during the month of August will greatly revive the pastures inasmuch as the pasture plants have been entirely killed out. New seedlings of clover and grass have likewise suffered severely and next year's crop of hay and pasture is endangered as a result.

"Incomplete returns on condition of pasture as of Aug. 1, which have since become available, indicate pasture to be the lowest on record.

Livestock Decrease. "The number of livestock in 1930 as a percentage of the five-year average is shown on one of the maps attached. It is noted that for the United States the numbers of 1930 are approximately 5 per cent below average. Only two areas have as many or more than the United States average.

These are Montana and Wyoming, where sheep numbers have expanded as a result of the series of comparatively good crop years, and a portion of the North Atlantic States where the number of dairy cows and heifers has been gradually increased.

"In South Dakota the number of livestock is 10 per cent below average, largely because of a series of relatively poor crop years. In the central corn belt, from Ohio to Missouri, livestock numbers are approximately 8 per cent below average, due largely to a decrease in hog numbers.

"Elsewhere livestock numbers are below average by a small percentage except in isolated cases, such as Oklahoma, Mississippi, Nevada, Louisiana and Florida. Of these states only Nevada is an important livestock producing State.

"The coincidence of relatively low livestock numbers and low feed production in the Montana, Wyoming area and in some of the Middle Atlantic states indicates the probability of some liquidation of sheep and cattle in the former area and dairy cattle in the latter.

"The extremely low probable feed production coinciding with only moderate declines in livestock numbers in the Ohio-Mississippi River Valley drouth area, indicates the probability of distress marketing which will probably take the form of culling dairy heifers and sheep flocks and the early marketing of hogs, accompanied by the failure to take the usual numbers of stocker and feeder cattle.

"There is a possibility that South Dakota, Nebraska and adjacent portions of Minnesota, Kansas and Iowa will be in position to take some extra stocker and feeder cattle.

TIE IN JUDGESHIP PRIMARY

Special to the Post-Dispatch. EDINA, Mo., Aug. 9.—The official count today shows Timothy J. Coffey and W. G. Snell tie for the judgeship primary.

Residing Judge of Knox County, Coffey, 34, a native of Illinois, was elected to the judgeship with 167 votes each. Coffey, Attorney Tom B. Brown has wired Attorney-General Shurtleff for an opinion on how to decide the tie.

HOOPER TO OBSERVE 56TH BIRTHDAY IN CAMP TOMORROW

Study of Drouth Problem Continued—Usual Recreational Activities on Rapidan.

By the Associated Press.

ORANGE, Va., Aug. 9.—President Hoover occupied a smaller space than usual today in President Hoover's week-end program as he gave his attention to the problems of drouth relief. His mountain camp on the Rapidan river bore signs of the lengthy spell which has afflicted the country. A flower garden which Mrs. Hoover had planted and tended was found today brown and seared.

A large party of guests which accompanied the President and Mrs. Hoover for the week-end, voted today for the usual program of the camp—horseback riding and hiking, and many indoor games which have found favor in the community here.

On the drive from the camp yesterday the group passed the rugged and withered corn fields. The observed dry stream beds and cattle being driven long distances to water. In the early morning the President and Mrs. Hoover were seen in the study of the drouth problem.

Tomorrow, however, will be a special day at camp and the President's studies may be postponed for the celebration in fitting though quiet fashion, of the Hoover's fifty-sixth birthday.

Before a brief rest, the President and Mrs. Hoover will be seen yesterday. A group of Washington Boy Scouts brought their own heavy symbolic of pioneer days.

Both Pilots Complain of Heat—Refueling Plane Ignited by Backfiring—No Damage Done.

PRIMARY RESULTS
CONSTABLE AND
JUSTICE OF PEACE

Five Republican Incumbents Renominated, Five Defeated for the Latter Office.

ELECTION BOARD
COMPILES RETURNS

Eight G. O. P. Constables Selected for Another Term. One Beaten—Democrats in Office Win.

The primary results of the election for constables and justices of the peace were compiled by the election board yesterday.

Justices: Clarence E. Clark, William E. Van Camp, Elmer L. Moore, Charles A. Polito and Gustav H. Hering and Constable William C. Polito were defeated. Polito was running in the Fifth District, but at present is serving in the Sixth to fill a vacancy by appointment of Circuit Court.

Justices: The Sixth has a Republican Democratic vote and no Republican was running there, but James H. Miller, Fourth Ward Democratic city committeeman, was nominated on the other ticket without opposition. Polito was re-elected Fourth Ward Republican city committeeman, unopposed.

Clark, who is finishing a second year term, was the first Negro Justice of the Peace here. He lost to Charles H. Turpin, first Negro constable here, now out of office. Van Camp was beaten by Robert H. Walker, Turpin and Walker will serve in the Fourth District.

Walker was one of the St. Louis constables in the Federal Court at Indianapolis of participation in the Jack Daniel distillery conspiracy. A new trial was granted him but later the charge against him was dismissed by the government. He is in the sign shop business.

Defeated former Supply Commissioner, lost in the Seventh District to Fred W. Lampert, who had a commission in the local census office. Defeated Constable was re-elected Republican city committeeman. In the Third District, Harry C. Meyers, a retiring Republican city committeeman, was renominated, but Elmer L. Moore, a former committeeman, defeated him. A Samuel Bender was nominated in Moore's place, under heretofore had sought election to the Circuit Court.

Five Renominated.

Republican Justices of the Peace renominated are: Harry J. Pfeiffer, Second District; Henry Pfeiffer, Second; Myers, Fourth; George Grassmuck, Eighth; and William D. Moore, Ninth.

Constable Metz had served in the Ninth District since 1914. He resides at 6642 Cabanne avenue, in the Twenty-eighth Ward, but formerly was Twenty-fourth Ward committeeman. Robert Hanna, who defeated him, lives at 6103 Madison street in the Twenty-fourth, and was backed by the two opposing factions in that large ward and had the Thirteenth Ward endorsement. Mr. Hanna was his political manager.

Republican Constables nominated to succeed themselves are: Edward J. Hoffmeister, First District; Committee member Harry M. Zimmerman, Second; Langston Harlow and William A. Morant, Fourth; Jack Weeks, Seventh; and Edward W. Kiorer, Eighth.

Constables John J. Kennedy, Third District, and John F. Byrne, Sixth, Democrats, were renominated. Justice of the Peace Edward P. Rice, Third, Democrat, was renominated. There were no Democratic contests for justiceships and the only fight on that ticket for nomination as Constable was in the Ninth District, where the vote was: Oliver Boerner, nominated, 67, and Fred W. O. P. Vote.

Details of G. O. P. Vote.

Republican vote was:

JUSTICES OF THE PEACE

First District—Pfeiffer, 14,064; Rice, L. Weissmantel, 5670; John A. McDonald, 1720.

Second—Pfeiffer, 2549; Gilbert A. Reuter, 1313; Frank A. Mueller, 212.

Third—William T. Ringhoff, 2842; 2814; Constable C. Turpin, 154.

Fourth—Walker, 1223; Turpin, 120; Van Camp, 1543; Clark, 1211; Frank S. Bledsoe, 335. (Two nominated.)

Fifth—Meyers, 2349; Bender, 2350; Committee member John J. Hurley, 1491; Moore, 1360; Polito, 2215; G. M. Allen, 681; Ellis E. Ottaway, 292. (Two nominated.)

Sixth—Lampert, 2646; Charles H. Turpin, 2798; Oetting, 2461.

Seventh—Grassmuck, 13,872; Ben P. Carpenter, 2569; Alfred A. Marks, 1450.

Eighth—Moore, 11,007; Edgar T. Huber, 2513; Myles P. McDonnell, 1792; Charles C. Tiemann, 1443; Harry Myers, 705.

Ninth—Hoffmeister, 17,761; Robert H. Leiber, 3598.

Second—Committee member L.

Day by Day in Europe

By O. O. McIntyre

BERLIN. The theater as we know it in New York does not exist in Berlin. Here they take the theater seriously and consequently it is a different thing. The German theater is not a place of amusement, it is a place of serious study and research. The German theater is a place of serious study and research. The German theater is a place of serious study and research.

"Bur-lean" has only two music halls—the Scala and Wintergarten. The most discussed theatrical production of the moment is "Die Wunderbar" at the Renaissance Theater, in the fashionable Charlottenburg, a new playhouse in a striking interpretation of the Renaissance.

Members of the cast arrive through the front entrance and are seated at tables by the head waiter. They stop at your table side to chat or borrow a light. The waiter carries a huge handbag of bright blue. She looks ready for a sudden journey. And maybe is.

There are no stunts in Berlin. I mean like those aerials, supple hideaways found behind Les Hells in Paris and Limehouse in London. I drove through the poor and toughest district around Schlesischer Bahnhof and it was as peaceful and opulent as Flushing, N. Y. But a city without stunts is to me too formal.

THE solid—solidity everywhere! omnibuses are cream white and without advertising posters. Subway entrances are works of art. There are special cars for smokers. Berlin sidewalks fill at dusk with very persistent and very engaging ladies of the evening. This marked decadence, like everything else, is blamed on the war.

(Copyright, 1930)

with a Byronic collar and a long face like Julius Tannen thrust his head into the taxi today and mumbled dolefully: "The poor and hungry man. It is hard to find work in Germany." Some ruffian in a uniform rushed out from a building and gave him an underserved shove that sent him flying into the middle of Unter den Linden. I got out and gave the beggar a two-mark piece. And afterward I wondered if it was all a frame-up.

WILL HOGG's handling of German is a repeated source of amazement—a combination of broken English and mental confusion that is the berries. Today he wanted a dill pickle, gave the prodded waiter a sour look and got it.

POLICE wear khaki coats, black silver helmets and white gloves. In my best German I inquired of one today: "Welches ist der Weg nach Jagernasse, bitte?" He replied in excellent English: "Two blocks ahead and turn right." And you could have it stogie off my right cheek. Everybody in Berlin seems to speak English with a British accent.

STREETS are dotted with half-breed youths carrying leather brief cases. I counted 100 in an hour. They carry them—I am unable to learn why—in the manner of a top swinging a cane. They may contain nothing or anything from an old newspaper to a bottle of eggs. The flapper carries a huge handbag of bright blue. She looks ready for a sudden journey. And maybe is.

man, 4421; Alderman Edward Hirth, 1951.

Third—Thomas W. Fahney, nominated, 3006; Herman Schworn, 1844.

Fourth—Harrison, 2651; Morant, 1945; Ernest Pattillo, 557; Jesse D. Rayburn, 424; William P. Smith, 417; Charles E. Jackson, 329; John J. Edwards, 226. (Two nominated.)

Fifth—Rice, 2486; Dorsey, 2468; Jordan W. Chambers, 1940; Jeff Covington, 1449; Sam J. Lane, 668; Jimmie Laury, 255. (Two nominated.)

Sixth—Fred Becker, nominated, 1875; W. D. Shavers, 471.

Seventh—Wecke, 5507; Frank Lepping, 3447.

Eighth—Kiorer, unopposed, 19,578.

Ninth—Hanna, 9747; Metz, 8092; Thomas F. Jennings, 3427.

GERMANY AND RUSSIA DISCUSS
MILITARY COLLABORATION PLAN

Polish Border Question and Dantzig Corridor Dispute Taken Up at Conference.

PARIS, Aug. 9.—In recent Russo-German negotiations in Moscow there was talk of military collaboration between Germany and Soviet Russia and also of the Polish question and the Dantzig corridor to the sea, according to reports received here from Berlin. Former Finance Minister Von Raumer headed the German delegation, which included Von Moltke.

Less was heard, however, of another German delegation working off Moscow at the same time, also under the direction of Raumer. While the discussion of commercial and economic questions, the other is said to have discussed matters of a political and military nature with a view to development and extension of Germany's existing convention with the Soviets.

Now that Germany's chief preoccupations on its western frontier are removed by evacuation of the Rhineland and the putting into operation of the Young plan, the Reich is turning to eastern frontier problems for solution and is said to be tightening of her relations with Russia as desirable.

NEWLY APPOINTED ST. LOUIS U.
HIGH SCHOOL PRINCIPAL DIES

The Rev. W. J. O'Leary who Retired Recently From Europe, Succumbed to Typhoid.

The Rev. William J. O'Leary, principal of St. Louis University High School, died at St. Mary's Hospital this morning of typhoid fever, less than a week after his return from Europe to take charge of his new duties. He was 34 years old.

A resident of East St. Louis, Father O'Leary entered the Jesuit order in 1914 after completing his freshman year at St. Louis University. He made a brilliant record as a theological student at Valkenburg, Holland, where he was sent to complete his studies, and was ordained early this summer in Ireland. He was to have celebrated a solemn high mass in St. Louis next week in honor of his return.

MRS. EWALD SAYS
\$10,000 WAS A LOAN

Tells Prosecutor That Husband Did Not Know of Deal With Tammany Man.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Aug. 9.—Mrs. Bertha Ewald told District Attorney Crain yesterday that she gave \$10,000 to Martin J. Healy, Tammany district leader, at the time of the appointment of her husband, former Magistrate George F. Ewald, to the bench, as a business loan. She did not tell her husband about it, she added, and has lost the note.

After listening to this explanation of the transaction which Mrs. Ewald had refused to talk about before the Federal grand jury inquest, Crain ordered a grand jury investigation of felony charges that Ewald had purchased his judicial post.

Mrs. Ewald appeared at Crain's office in response to a subpoena. She explained she had given the \$10,000 to Healy through Thomas T. Tommaney, chief clerk in the office of Sheriff Farley. Tommaney told her, she said, that Healy needed the money to build the building of a summer home at Blue Point, L. I.

Tommaney, who likewise refused to answer questions before the Federal grand jury, also was questioned by Crain. His statement coincided with Mrs. Ewald's. Ewald himself told Crain that he was ignorant of his wife's \$10,000 payment to Healy until two weeks ago, although it was made in the spring of 1927. He expressed a conviction it had nothing to do with his appointment.

While the witnesses were relating their stories to the County Prosecutor, John Mara, Tammany leader of the Twenty-third Assembly District in which Ewald resides, was called before the Federal grand jury. He was reported to have testified that George W. Olvany, then boss of Tammany Hall, asked him to endorse the appointment of Ewald to the Magistrate's bench in 1927. Mara refused. Olvany, it was reported, obtained the endorsement of Healy for Ewald, who was appointed by Mayor Walker.

The publishers announced they had sold 27,000 copies of the edition between July 21, when they began delivering copies to the bookstores, and the day of the raid, the release date of the book.

R-100 TO START TOMORROW
ON TRIP TO CANADIAN CAPITAL

British Dirigible Also to Visit Toronto, Hamilton and Niagara Falls.

MONTREAL, Aug. 9.—The British dirigible R-100 was made ready today for its flight over the Canadian capital and the St. Lawrence River. Repaired, refueled and regassed, the big airship will take off from St. Hubert airport tomorrow afternoon, circling to Ottawa, where it will arrive in the evening. It will then fly to Toronto and follow the St. Lawrence up over Hamilton and Niagara Falls back to St. Hubert airport.

Although there were reports that the R-100 probably would be kept off its return flight to Canada, Ewald, as it was reported, had returned here and refueled, the official takeoff time has been set for Aug. 15, and there has been no definite announcement of a change in those plans.

ROCKEFELLER HIT BY DROUGHT

Has to Get City Supply for Poca-poca Hill Estate.

TARRYTOWN, N. Y., Aug. 9.—So depleted by drought is the 9,000,000-gallon water reservoir on the Pocapon Hill estate of John D. Rockefeller that permission was given today for the tapping of the Tarrytown Municipal system to supply the estate.

Orders have been issued on the Rockefeller estate to curtail the use of water, and the large fountain in front of the mansion has been shut off for the first time for years. Several artificial streams on the estate are dry.

The estate consumes more than 100,000 gallons of water a day. The reservoir is almost dry, and two wells have ceased to flow.

STUDENT CLASH IN SAO PAULO

One Soldier Killed, Eight Police Shot.

RIO DE JANEIRO, Aug. 9.—Beleated dispatches from Sao Paulo say that one soldier was killed in a clash between law students and police. Eight policemen, two soldiers, one student and one civilian were wounded.

The city was quiet today and authorities expect no further disorder. They said the trouble began when students who had been permitted to hold a mass meeting to honor Joao Pessoa, assassinated President of the State of Parahyba, rebelled when they were not permitted to parade. Pessoa was buried here yesterday. The downtown stores were crowded and thousands lined the route as the procession passed.

\$12,000,000 ROAD PLANS

Italy to Provide Work for 27,000 Men.

ROME, Aug. 9.—The government today announced road-building programs involving expenditure of \$12,000,000 and providing employment for 27,000 men. The further expenditure of \$2,000,000 for development of a railroad from Florence to Bologna also is contemplated. The work will begin Sept. 15.

J. D. CURREATHERS RE-ELECTED
HEAD OF AMERICAN RETAILERS

Oklahoma City Merchants Named by Directors at Meeting in St. Louis.

J. D. Curreathers of Oklahoma City, Ok., was unanimously re-elected president of the American Retailers' Association at a meeting of the board of directors at Hotel Jefferson yesterday.

Curreathers, who has served one term as president of the organization, is president of the J. D. Curreathers Stores of Oklahoma City and vice president of the Hill Stores, Inc. of Oklahoma. He is one of the six charter members of the board of directors at Hotel Jefferson yesterday.

Vice presidents elected were Frank R. Becker of Scottsbluff, Neb.; C. E. Bunn of St. Paul, Minn.; R. T. Harville, Augusta, Ark.; George A. Jarvis, Fayetteville, Tenn.; Nathan Lynch, Wichita Falls, Tex.; Robert B. Meentemeyer of St. Louis, Mo.; and Scott R. DeKane of St. Louis.

"CASANOVA'S HOMECOMING"
SEIZED IN NEW YORK RAID

Society for Suppression of Vice Brings Charge Against Simon and Schuster, Publishers.

NEW YORK, Aug. 9.—The New York Society for the Suppression of Vice, a benevolent organization of 477 clerical copies of Arthur Schnitzler's "Casanova's Homecoming," as the result of a visit to the offices of Simon and Schuster, publishers, by John S. Sumner, an assistant and two detectives. The publishers lent Sumner a copy to haul away the books and the two partners promised to be present at Fourth District Magistrate's court Aug. 18 to argue against the warrant by which the raid was authorized.

The warrant names Simon and Schuster, the firm, Richard L. Simon, a member of the firm, and Lawrence W. Hoyt of the sales department, who sold a copy of "Casanova's Homecoming" to a visitor who had discussed opening an account for a new book store.

The publishers announced they had sold 27,000 copies of the edition between July 21, when they began delivering copies to the bookstores, and the day of the raid, the release date of the book.

LINDBERGH FLY TO SUMMER HOME IN NEW PLANE

By the Associated Press.

HICKSVILLE, N. Y., Aug. 9.—Col. Charles A. Lindbergh and his wife took off in Mrs. Lindbergh's new biplane today from the Aviation Country Club field for North River, N. Y., summer home of Mrs. Lindbergh's father, Ambassador Dwight W. Morrow.

The Brunner-Anne-Winkle Bird biplane was delivered and test flown yesterday at Roosevelt Field. The ship, a cream and blue Kliner-motored craft, bears the Department of Commerce license No. NR-7277-Y and is registered in Mrs. Lindbergh's name. It contains a special baggage compartment and instrument board and is equipped with big tires to lessen the shock of possible rough landings. The ship was flown yesterday by Ed Winkle, who took it to Southampton, late in the day. The Lindbergh baby was left at home.

FLOOD IN NICARAGUA LOWLANDS

Halts Trading of Canal Line by U. S. Engineers.

WASHINGTON, Aug. 9.—Floods sweeping through the east end of the Nicaragua Canal in partially have halted the trading of the canal line there by United States Army engineers.

The War Department today published a report from an engineering corps working in the coastal swamps of the lower San Juan River, between the Rio Negro and the Rio San Juan, that they had been forced to move when three days of heavy rains brought water to the level of their camp site. Since the flood, the report said, the engineers had found it impracticable to continue work, since what appeared to be dry land was covered by six or eight feet of water.

M. C. WICK JR., STEEL MAN, DIES

Was One of Opponents of Youngstown Tube Co. Merger.

YOUNGSTOWN, O., Aug. 9.—Myron C. Wick Jr., member of a family for generations associated with the steel business, died in Youngstown hospital of pneumonia yesterday, after an illness of one week. He was 35 years old.

Mr. Wick was one of the active forces against the merger of Youngstown Sheet and Tube Co. with Bethlehem Steel Corporation which has been held up by an injunction suit now being heard here. Two days before his death, Mr. Wick was in the court room. He had attended almost every session.

2,757,000 GERMAN JOBLESS

Of These, 1,700,000 Are Getting Aid From Government.

BERLIN, Aug. 9.—The Government today announced that Germany's unemployed have reached a total of 2,757,000 as of July 31. Of this number, 1,700,000 are receiving public relief, 1,000,000 of these going into the state class in a year. The increase during the last two weeks in unemployed has been 51,000.

COOLIDGE STATEMENT
CHALLENGED BY NAVY

Officials Deny Saying Best Aircraft Motors Are Made Abroad.

By the Associated Press.

WASHINGTON, Aug. 9.—The Navy Department, which not long ago took Calvin Coolidge's slightest word as law, has objected to a pronouncement of the former President.

In a recent syndicated article by Mr. Coolidge dealing with aircraft they occurred the sentence: "A navy officer reports that the best engine is made abroad."

The navy has long prided itself that it has the best airplane motors ever made and Acting Secretary Jahncke and Rear Admiral William A. Moffett, chief of the Bureau of Aeronautics, were quick to say so after reading the Coolidge article.

A typographical error, however, may be responsible for the conflict. If Mr. Coolidge intended to say "officer" instead of "engine," there would be little cause for complaint on the part of the navy, for one of its officers—Lieut. T. W. G. Settle, noted balloonist—recently observed in an article that a German engine was the only desirable power plant so far fully tried and developed. The Coolidge article started with a reference to the flight of the R-100, thought it discussed aviation in general.

The Official Statements. Jahncke's statement follows: "My attention has been called to Mr. Coolidge's statements concerning aviation engines. I believe the Navy is regarded as largely responsible for the creation and development of the air-cooled engine, which made Lindbergh's flight possible, together with the tremendous advances in aviation that followed. These engines are without superiors anywhere in the world and are produced in quantities by several American aircraft engine manufacturing concerns."

Admiral Moffett said in part: "There are only two possible exceptions wherein this country may not absolutely lead in aircraft engines. The Germans have concentrated on improving airship engines, and have a better engine—the Maybach—than any other airship engine available at the present time in this or any other country."

"However, the Navy Department looks to the substitution of a heavy oil engine for gasoline engines for use in airships and has therefore been experimenting since 1927 on two engine types and hopes that one of these engines will be ready in time for use in the second airship, the ZRS-5. With heavy oil engines, instead of gasoline, and having helium, fire hazard will be completely eliminated."

Schneider Cup Races. "Also, the competition resulting from the Schneider cup races caused intensive development by the competing nations of high speed water-cooled engines, and in the water-cooled type there are in existence abroad several engines of 1000 horsepower and above which are superior to ours. However, in the lower horsepower, those for every day usage, our American water-cooled engines have no superiors."

"It might be well to note that the United States for several years has had decreasing interest in water-cooled engines, and has taken to the development and use of the air-cooled engine, which type is used almost exclusively by the navy. The air-cooled engine was fostered and first brought out by the navy."

"The reliability of this type of engine is beyond any question of a doubt and is the finest in the world. Such outstanding demonstrations as Lindbergh's flight to Paris, the three weeks spent in the air by the Hunter brothers, the flight around the world of the Southern Cross, and the regaining of the world's altitude record by the navy, are proofs of the reliability and durability of American aircraft engines."

OCEAN AIRLINES SOON, LINDBERGH PREDICTS

Aviation Routes Will Link All Parts of World, Flyer Says in Radio Talk.

By the Associated Press.

NEW YORK, Aug. 9.—Trans-Oceanic airlines connecting all parts of the world are predicted by Col. Charles A. Lindbergh as a development of aviation to come within the next few years.

Speaking twice yesterday over the most elaborate hook-up of radio systems ever established, a hook-up designed to carry his voice over the American Continent, Europe, Asia, Africa and Australia, Lindbergh declared that the most important effect of aviation would be in international relations.

"When measured in hours of flying time," he said, "the great distances of the old world no longer exist. Nations and races are not separated by the traditional obstacles of caribound travel. The last few years have seen the extension of airlines over every continent. The next few will bring trans-oceanic routes to unite these continental services into a network covering the entire world."

The first broadcast of the speech failed to reach England and Europe because of a storm at sea which interfered with trans-Atlantic sending.

The second broadcast, although intended for American listeners, also was sent on short waves which made it available to European hearers, although the difference of time caused it to be received abroad in the early hours this morning.

CHURCH NOTICES

THE CHURCHES NAMED BELOW ARE ALL MEMBERS OF THE METHODIST CHURCH, THE FIRST CHURCH OF CHRIST, SCIENTIST, IN BOSTON, MASS. Subject of the League of Nations. GOLDEN TEXT, Romans 8:10.

SUNDAY SERVICES ARE HELD AT THE FOLLOWING CHURCHES: FIRST CHURCH—1100 Broadway and Westmoreland; 11 a. m. and 8 p. m. READING ROOM—3000 Delmar Blvd.; 9 a. m. to 9 p. m. daily, except Wednesdays. 9 a. m. to 7:30 p. m. Sunday, 2:30 to 5:30 p. m. SEVENTH CHURCH—2254 Washington Blvd.; 11 a. m. and 8 p. m. READING ROOM—Church office, 12 to 4, except Sundays and holidays. THIRD CHURCH—1045 E. Russell Blvd.; 10:45 a. m. and 8 p. m. READING ROOM—Same location, 12 to 4 p. m., except Sundays and holidays. FOURTH CHURCH—5509 Page Blvd.; 11 a. m. to 9 p. m. daily, except Wednesdays. 9 a. m. to 7:45 p. m. Sunday, 2:30 to 5:30 p. m. FIFTH CHURCH—Arkansas and Potomac; 11 a. m. and 8 p. m. READING ROOM—Same location; 12 to 4 p. m. each week day. SIXTH CHURCH—3700 National Blvd.; 11 a. m. and 8 p. m. READING ROOM—Church office, 12 to 4, except Sundays and holidays. NINTH CHURCH—1100 Grand Boulevard; 11 a. m. and 8 p. m. READING ROOM—6102 S. Grand Blvd.; 1 to 4 except Sundays, holidays. EIGHTH CHURCH—Winter Road and Wyden; 11 a. m. and 8 p. m. READING ROOM—3221 Alexander Drive, Week days, 1 to 4 p. m. except Wednesdays, Saturdays and holidays. Wednesday 8 p. m. WEDNESDAY EVENING TESTIMONIAL MEETINGS at all churches, 8 p. m. READING ROOM—1093 Railway Exchange Building, 9 a. m. to 9 p. m. daily, except Wednesdays, 9 a. m. to 5 p. m.; Sundays and holidays, 2:30 to 5:30 p. m.

COOLIDGE STATEMENT

ST. LOUIS MARKET

NEW YORK, Aug. 9.—The cur-
met further selling pressure in an
active two-hour market today, but
short covering in the late trading
reduced or eliminated the early
moderate decline.

weight of professional liquidation,
but the bear faction protected its
after the opening of

profits soon after the start of the
the second hour. There was another
downward trend gesture toward
the result that the

the close, with the
extreme advances from the day's
high quotations were cut and the
market closed generally lower.
Utilities and investment trusts
were prominent in the decline.
American Gas & Electric broke
more than 5 points before its loss
was cut in two by covering. Elec-
& Share dipped below
the previous close, rallied
materially and finished $\frac{3}{4}$ higher.
Niagara Hudson, American Super-
power and United Light "A" held
steady.

Offering of Coaden Oil met with
little support and the stock lost
5 points. Houston was off 1
point. Service was actively sold for
the day.

13% a time but the covering
70 equally aggressive and the shares
70 showed a net gain of 1/4. Vacuum

MAFIA JURORS FACE HALF-YEAR SESSION

Every Attorney in Town Engaged in Defending Sicily's 200 Gangsters.

By the Associated Press.
SICILIA, Aug. 9.—Six, seven or eight months out of one's regular occupation is what it means to be a juror in the monumental trial here of 241 members of the Mafia, the Sicilian gangsters and extortionists.

The trial began early in July and the steady, seemingly interminable grind on the jurors and everybody concerned—has begun, too.

Judge Alciati had tremendous difficulty in getting a jury. None wished to give up from a half to three-quarters of a year from his business or profession, or, if he had no occupation, to sit steadily listening to testimony month after month.

In consequence, the Judge had to fine dozens of prospective jurors for absenting themselves from court. In the end, several lawyers, some teachers, an auditor, a clerk, two druggists, and a retired tax collector, were impounded.

Important to Public.

The trial is highly important to the people of Sicily. If it results in the condemnation of the defendants, it will remove the last remaining group of any size associated with the hated but feared Mafia and virtually complete Mussolini's work of cleansing up the racketeers, many of whom already have transferred their activities to American cities.

The jurors must hear testimony on 43 murders, 26 attempted murders, assaults, many extortions and a multitude of minor crimes. A thousand witnesses have been subpoenaed.

And after the thousand witnesses and the attorneys are heard, the jurors will have to respond to no fewer than 50,000 interrogatories in connection with their verdict. They will be out several weeks doing nothing but writing answers to questions, like schoolboys sitting down to examinations that never stop.

200 Defendants on Trial.
Before them every day of trial will be about 200 of the defendants, in cages. By Italian procedure, defendants are not permitted to sit beside their lawyers. When the trial opened, there were 185 men of all ages in several great cells. The others were ill.

Among the accused are some prominent citizens of Sicily, according to the prosecution, have made millions from their racketeering operations. One of them is Vincenzo Balanotte, a monsignor of the church.

Almost every lawyer in Sicily has been drafted by the defense so except for the trial there will be very little legal business in Sicily for some months. Other attorneys have come from Palermo and cities on the Italian mainland. Chief of them all is Senator Albio.

NAVY ANNOUNCES ECONOMIES IN LINE WITH HOOVER PROGRAM

To Continue Present Wages, Reduce Ship's Steaming Radius, Close Key West Station.

By the Associated Press.

WASHINGTON, Aug. 9.—Acting Secretary Jahncke of the navy, announced yesterday that three steps would be taken immediately by the Navy Department in line with President Hoover's program of economy in governmental expenditures.

Jahncke named them as continuation of the present schedule of wages into 1931; cutting down the steaming radius of all navy ships to save between \$350,000 and \$400,000 of fuel, and a preliminary study designed to place the naval station at Key West, Fla., on an inoperative status.

The Secretary said the Wage Board decision would affect about 40,000 employees. The Navy Department has estimated an annual saving of \$200,000 would be effected by placing the Key West station on an inoperative status.

DR. IDA KITTREDGE, 30 YEARS A ST. LOUIS PHYSICIAN, DIES

Succumbs at 67 After Long Illness; Funeral to Be Held Monday.

Dr. Ida F. Kittredge, a practicing physician in St. Louis for more than 30 years, died at the New Deaconess Hospital yesterday after a prolonged illness. She was 67 years old.

Dr. Kittredge, who lived at 3247 South Jefferson avenue, was a graduate of the old Eclectic Medical School and a member of the St. Louis Medical Society. She had been a widow for 30 years. She is survived by a daughter-in-law, Mrs. Minnie A. Kittredge, her only son having died 17 years ago.

The funeral will be held from an undertaking establishment, 2513 Cherokee street, to Curby Memorial Presbyterian Church, Texas avenue and Utah street, at 2 p. m. Monday. Burial will be in Bellefontaine Cemetery.

\$12,000 PAYROLL SEIZED

Executive and Employees of Construction Firm Robbed.

By the Associated Press.
DAYTON, O., Aug. 9.—Forcing the automobile of F. X. Milligan, superintendent of the H. R. Blagg Construction Co. and C. M. Wadsworth, an employee, to the curb, three masked robbers seized the company's \$12,000 payroll and escaped here today.

Children of Wife Murderer

LEFT to right, A. D. PAYNE JR., 9 years old, injured in auto bomb explosion which killed his mother; LADELL PAYNE, 13, and BOBBY JEANNE PAYNE, 9.

ELECTROCUTED WHEN AERIAL FALLS ON HIGH TENSION LINE

Edwardsville Man Tries to Separate Wires, and Broken End Strikes His Body.

James F. Sherman, 35 years old, was electrocuted at Edwardsville at about 7 o'clock last night by the current from high tension wires transmitted to his body by a broken radio aerial.

Following a shower the aerial attached to the Sherman house came in contact with the high power lines, through slackening, and sparks were produced which, Sherman feared, would set fire to the house. He seized a clothesline prop to separate the wires, with the result that the aerial was severed and the end of a wire fell in a coil about Sherman's neck.

The group was wet, further facilitating the current, and Sherman immediately collapsed.

The wires were carrying 4500 volts. A neighbor who threw water from a bucket on Sherman's body in an effort to disconnect the spluttering wire received a severe shock. The body could not be extricated until the power company had been notified to shut off the current.

An inquest over the death will be held Monday.

Sherman lived with his mother, Mrs. Louis C. Sherman, and had been a resident of Edwardsville only since last November. He was a laborer and lived formerly at Mattoon. He was married but had been separated from his wife who, with his two children, lives at Hume.

COMPLAINT AGAINST GAMBLING AT SARATOGA SPRINGS, N. Y.

ALBANY, N. Y., Aug. 9.—Gov. Franklin D. Roosevelt will act within 48 hours on a formal complaint filed at the legislative chamber here that gambling and vice are rampant in Saratoga Springs during the August race meeting.

Hugh Dorsey, a former policeman at Saratoga Springs, brought the charges to Albany personally and handed them to Governor T. Cross, secretary to the Governor.

The Governor, it is understood, has his counsel studying the complaint to determine whether it constitutes a charge of neglect of duty against law-enforcement officials at Saratoga or whether it merely alleges illegality.

The complaint is said to include the statement that the owner of a famous stable of race horses took \$100,000 at roulette one night this week.

ATTORNEY HELD FOR FRAUD

Charged With Sale of \$125,000 Fake Mortgages at Chicago.

CHICAGO, Aug. 9.—Attorney Charles B. Goodman, for whose arrest several warrants charging a confidence game were issued six months ago, was arrested last night in his home by one of those he is alleged to have defrauded.

Morris Rabin, who charged he lost his life savings of \$4000 through the purchase of a spurious mortgage, said he had sought Goodman for a month. Rabin trailed Goodman to his home and notified the police. The attorney is charged with selling fake mortgages to the amount of \$125,000.

On Porch While Home Is Robbed

While C. G. Evans and his wife, 450 North Twenty-first street, East St. Louis, were attempting to keep cool by sitting quietly on their front porch last night, a burglar as quietly entered their open back door and ransacked the house, obtaining \$22 in cash, a revolver and clothing valued at \$150. The thief lost a dollar bill as he left the house by the way he had entered and it was recovered by Evans from the threshold.

FOR SPEEDY TRIAL OF BOMBER

Amarillo Prosecutor to Seek Indictment Today

By the Associated Press.
AMARILLO, Tex., Aug. 9.—Edward W. Thomerson, District Attorney, was engaged today in an attempt to bring about the speedy trial of A. D. Payne, attorney, who confessed to the slaying of his wife, killed June 27 by a dynamite bomb in her car. Thomerson said a grand jury could be impaneled late today, an indictment returned, and Payne placed on trial Monday if Judge Henry S. Bishop saw fit.

In his confession, Payne said he killed his wife so she would not learn of his attentions to Mrs. Vernon Thompson, his stenographer, and of his embezzling of family funds.

BOY'S BLOOD USED TO GUARD SCIENTISTS AGAINST TYPHUS

Government Men Making Experiments to Search for Remedy for Disease.

By the Associated Press.
WASHINGTON, Aug. 9.—Serum from the blood of a 13-year-old boy, Julian Morris of Sudlersville, Md., protects two United States Government scientists, Dr. R. E. Dyren and Dr. L. F. Badger, as they search for a remedy for typhus, using guinea pigs for the experiments.

Young Morris, who was ill for about two weeks with genuine typhus, a disease which thus far has baffled science, came to Washington and gave a half pint of his blood for infection in both of the experiments.

Dr. George W. McCoy, director of the laboratory of the National Institute of Health, said the danger was great. There have been many cases of infection, and several deaths, from laboratory contamination in typhus, he said.

Young Morris' blood is also being used in experiments on protection from typhus. Dr. McCoy estimates a charge of neglect of duty against law-enforcement officials at Saratoga or whether it merely alleges illegality.

YOUNG WYOMING RANCHER HELD AS 'THE PHANTOM HORSEMAN'

Said to Admit He Is Mysterious Rider Who Has Been Terrorizing Countrywide.

By the Associated Press.
WHEATLAND, Wyo., Aug. 9.—Charles Adams, young rancher, was in custody today and officers said he admitted being the masked horseman sought for terrorizing the countryside recently. A comparison of fingerprints on a sign warning ranchers to leave the country and on letters Adams gave officers to investigate led to his arrest.

Adams was shot in the shoulder several weeks ago. At the time he told authorities the masked rider had fired on him in his own ranch yard. Numerous other ranchers received letters signed "The Phantom Horseman," warning them to leave the country.

Officers said Adams refused to explain his motive. They offered the suggestion he was attempting to drive a rival in love from the neighborhood. A masked rider has been seen often by ranchers recently riding a white horse.

DIES OF MONOXIDE POISONING

The death Thursday night of Charles R. Maurer, 77 years old, retired hardware dealer of East St. Louis, from monoxide poisoning, in the garage of his home, 1701 North Forty-fourth street, was pronounced accidental by a Coroner's jury yesterday.

Maurer had been working on his automobile while the engine was running and the garage doors closed. His body was found beside the car by his son, Edward C. Maurer, East St. Louis automobile agent. The funeral will be held at 2 p. m. today from an undertaking at 2535 State street, to Mount Hope Cemetery.

THREE HELD IN BOND THEFT RING IN CHICAGO

Accused of Selling Securities Stolen in Holdups—Fourth Is Sought.

By the Associated Press.
CHICAGO, Aug. 9.—A police trap was set today for the fourth and last member of a bond theft "brokers" firm supposed to have handled hundreds of thousands of dollars' worth of securities taken in big robberies all over the country. Three alleged members of the ring were arrested yesterday and \$15,500 in stolen securities was recovered. Police refused to disclose the name of the fourth man or to say where they expected to catch him. It was reported that the trap was set in Chicago and in Kansas City.

The three arrested yesterday, all of whom have served sentences in Leavenworth penitentiary, are Leo Merzen, former bank cashier of Beloit, Kan., Stanley McCormick, former Minneapolis broker, and R. W. Hampton of Indianapolis. The latter was arrested first as he attempted to bring about the speedy trial of A. D. Payne, attorney, who confessed to the slaying of his wife, killed June 27 by a dynamite bomb in her car. Thomerson said a grand jury could be impaneled late today, an indictment returned, and Payne placed on trial Monday if Judge Henry S. Bishop saw fit.

In his confession, Payne said he killed his wife so she would not learn of his attentions to Mrs. Vernon Thompson, his stenographer, and of his embezzling of family funds.

French dressmakers recently formed a syndicate to track down persons who contrive to copy new creations. They say reduced sales of French models to America are due largely to the work of copyists. The two Americans will be prosecuted.

Hampton's sentence was for counterfeiting. These three and their accomplice are said to have operated a clearing house through which passed the loot of many of the larger robberies of recent years. The bonds found on Merzen, they said, came from robberies in Cleveland, New York, Memphis and Cicero, Ill. The three men were released under \$5000 bond.

LEGGE SAYS FARMER MUST WAIT FOR HUMBLE BUYER

Declares He Will Never Get His Share if He Chases Purchaser.

By the Associated Press.
CALDWELL, Idaho, Aug. 9.—Alexander Legge, chairman of the Farm Board, addressing a Boise Valley Creamery Association picnic yesterday said the individualism of the farmer was his greatest joy, "but it's damned expensive." He urged collective action to obtain a fair return for the produce of each farmer.

"The time when he gets that share," he said, "will never come as long as the individual farmer chases the buyer and takes what the buyer is pleased to give. It will come only when he sits back on the farm and waits for the buyer to come humbly. He must be able to wait."

SPECIAL GRAND JURY ORDERED IN RADIO MAN'S MURDER

Special to the Post-Dispatch.

DETROIT, Mich., Aug. 9.—While five Circuit judges were signing an order calling a special 12-man grand jury yesterday to investigate the killing of Gerald E. Buckley, Angelo Livechi was ordered by Judge John V. Brennan in Recorder's Court to be held without bail charged with the murder of the radio commentator. Livechi's commitment followed his identification as the man who summoned the actual killers into the La Salle Hotel lobby, where they shot Buckley to death on the morning of July 23. Identification was made by a surprise witness, Gus Reno, a taxi driver. Elmer Jolly hotel detective, substantiated the story told by Reno.

A coast to coast search was set in motion today for Thomas Licavoli, Ted Pizino, Mike Morgany and Frank Cammarata, whom Police Commissioner Wilcox named Thursday as the men who are sought as the slayers of Buckley. Police think that Licavoli, Morgany and Pizino did the actual shooting, while Cammarata drove the car.

The Detroit News says that Pizino has been arrested in New York.

TROOPS PATROL INDIANA CITY WHERE NEGROES WERE LYNCHED

Fear of Further Mob Violence at Marion Suburban—Crowds Kept Moving.

By the Associated Press.
MARION, Ind., Aug. 9.—Order apparently has been restored here and an apprehension over a possible recurrence of mob violence similar to Thursday night's dual lynching has subsided. Two National Guard companies are here in readiness to cope with any outbreak.

Two companies of the Indiana National Guard arrived here at 5:30 a. m. from Louisville, where they had been in training. Col. George H. Healy, in command of the units, said the troops would patrol the city.

Reports that gangs of Negroes were coming in from other cities to aid in reprisals for the hanging of Thomas Shipp and Abe Smith failed to materialize.

Crowds moved restlessly about the streets last evening, but police patrols prevented looting.

TWO AMERICANS QUESTIONED ABOUT COPYING PARIS MODELS

Copyright, 1930, by Press and Publisher Publishing Co., New York World.

PARIS, Aug. 9.—Two American women suspected of transgressing laws made for the protection of French dressmaker models' copyright, which is considered as sacred as the copyright protecting literary productions, were questioned yesterday by police officers. A search disclosed many drawings, copies of the latest models of fashionable couturiers.

The names of the American women are given as Caroline Davis of East Orange, N. J., and Ida Oliver of Parnassus, Pa.

French dressmakers recently formed a syndicate to track down persons who contrive to copy new creations. They say reduced sales of French models to America are due largely to the work of copyists. The two Americans will be prosecuted.

EX-SENATOR REED FULL OF OPTIMISM

Says Economic Situation in U. S. and Europe Is Not as Black as It Seems.

By the Associated Press.
BERLIN, Aug. 9.—Former United States Senator James A. Reed of Missouri, speaking over the German radio today said that neither the American nor European political or economic situation was as black as it seemed.

So far he said he had found no bitter feeling between nations and there certainly was none in the United States for Germany.

The economic depression in the United States, he described as a "passing phase much exaggerated in the press and bound to return to normal soon."

It was true that speculators had lost money in the decline of stock prices but that American stocks today were priced at their probable true value, he declared.

America's industrial position, Reed asserted, was on the way to rapid recovery but "suffering from artificial barriers erected by the governments in the channels of trade."

TAKES SIX PISTOLS IN HOLDUP

Robber Finds No Money in Safe of Scott Cleaning Co.

Six automatic pistols valued at \$100 were stolen from a safe in the office of the Scott Cleaning Co., 3529 Olive street, last Thursday in a holdup, according to a report to police today.

The robber held up two employees and searched the safe, which contained no money. The pistols were purchased in 1927 to arm company drivers during a cleaners' union strike, and later were placed in the safe, Arthur Hartman, manager of the company, said.

FORD AGREEMENT WITH ITALIAN COMPANY REPORTED

Franchising Works to Assemble the Machines on a Preferential Basis.

By the Associated Press.
MILAN, Italy, Aug. 9.—A definite agreement between the Ford interests in Italy and the Isotta Fraschini Works for active co-operation was reported yesterday to have been reached.

To meet the increased Italian duties on American automobiles, it is understood that Ford dealers throughout Italy will sacrifice one-third or three-eighths of their commission on sales, the home plant reducing the F. O. B. Detroit price accordingly.

The Italian partners in the new combine are reported to be interested with the Government for preferential rates on the importation of the chassis and some spare parts. It is expected that the assembling and marketing of the new "Italianized" Fords will begin here within eight or nine months.

Once the Italian market is satisfied, the combined companies probably will concentrate on the Balkan and the Near East trade.

SINCLAIR DENIES MERGERS

Not Negotiating With Richfield or Simms Companies He Says.

By the Associated Press.
NEW YORK, Aug. 9.—Harry F. Sinclair, president of Sinclair Consolidated Oil Corporation, said today "All oil companies are looking around for something to merge with." He denied, however, that negotiations were under way for the acquisition by his company of Richfield Oil Co. or Simms Petroleum Co.

Sinclair said that negotiations for the merger of Sinclair and Prairie Oil & Gas still were under way, but that no further developments could be expected until after the meeting of Sinclair stockholders had been held and the sale of the Sinclair Pipeline Co. and the Sinclair Crude Oil Purchasing Co. to the Standard Oil Co. of Indiana had been ratified.

81 PERSONS, MOSTLY NEGROES ARRESTED IN POLICE RAID

15 Dice Players Seized in Basement; Whiskey Found on West Market.

Eighty-one persons, mostly Negroes, were arrested and 21 gallons of whiskey and more than 400 bottles of beer were seized in a police raid on a dice game in a basement; the pool room was found in a dice game, 414 South Twenty-third street, where 10 Negroes were playing cards, and a flat where a Negro was found with police allies in his pocket.

At a meat market, 1412 Broadway, 25 gallons of whiskey were arrested and a raid on the flat of George Wels, 1629A Dolman street, yielded 24 cases of beer. Wels was arrested.

HELD FOR SHOOTING AT EX-BOSS

William Krueger Surrenders; Old Job Was Refused Him.

By the Associated Press.
ST. LOUIS, Aug. 9.—William Krueger, 4236 Iowa avenue, wanted on a charge of shooting his former employer, surrendered to police last night.

Krueger, police said, admitted firing four shots at Schultz Monday in the office of the Compton Planing Mill Co., 3213 Compton avenue. Krueger, who is president of the company, had refused to give up his back his old job.

HELD FOR KILLING ANTERIOR

SAN JOSE, Cal., Aug. 9.—Lester L. McClay shot a 150-pound black tall deer with 15-inch antlers, a inch spread and two points back. It was a doe. He now is under arrest for shooting a doe. Antlered doe is a great rarity.

CASH PRIZES for naming BABE RUTH'S ALL-AMERICA BASEBALL TEAM

Again the annual Babe Ruth Baseball Contest will give Post-Dispatch readers a chance to profit by their knowledge of the playing ability of big league stars.

Three hundred dollars in cash prizes will be awarded to the fans who select the same All-America Baseball Team in the same batting order as Babe Ruth, and write the

These Awards Will Go to the 33 Prize Winners

First Prize	\$100
Second Prize	75
Third Prize	50
Fourth Prize	25
Five \$10 Prizes	\$300

The next 12 winners will receive Babe Ruth autographed baseball bats. The last 12 winners will be awarded regulation American League baseballs, autographed by Babe Ruth, and mounted for use as blotters.

best explanations of their choices. In case no one names Babe's team exactly, prizes will go to the contestants coming closest to Ruth's selections.

Full details of the contest and batting and pitching averages to help you make your selections will be published

Tomorrow in the Sports Section of the

POST-DISPATCH

NEW YORK Blaeholder KILLEFER MEN SCORE IN E THREATEN IN

By a Correspondent of the Post.
NEW YORK, Aug. 9.—The Browns dropped the score was 9 to 1.

The game:
FIRST INNING—BROWNS—Blue hit to Rice. Metzler struck out. Gossin singled to left. Kress struck out.

NEW YORK—Combs filed to center. Reese singled to right. Metzler singled to right, and when Metzler let the ball roll between his legs Reese scored and Ruth took second. Metzler's throw out Lazzari, who was going to third. Gehrig hit to Burke and Ruth was out at the plate. O'Rourke to Huntington. Ruth was knocked out when Huntington hit him in the groin. After a few minutes' delay Lazzari got up and walked to his position in right field.

SECOND—BROWNS—Badger struck out. Lazzari threw out Metzler. O'Rourke went out the same way.

NEW YORK—Rice grounded out. Blue. Lary doubled to right. Bengough popped to Kress. Ruffing filed to Metzler.

THIRD—BROWNS—Huntington walked. Blaeholder bunted to center. Blaeholder's throw to Metzler allowed Huntington to take second and Blaeholder was safe at first. Blue hit safely down the third base line, putting Huntington on third and Blaeholder on second. Kress Ruffing threw wild to first, and Blaeholder scored, and Blue took second on the error. Ruffing tossed out Metzler. Blue scored. Gossin singled to left. Rice hit to center, scoring Kress. Metzler filed to Rice. FOUR RUNS.

NEW YORK—Combs was out. Metzler to Blue. Reese was out the same way. Ruth filed to Metzler. FOURTH—BROWNS—O'Rourke hit to Ruth. Huntington struck out. So did Blaeholder.

NEW YORK—Lazzari walked. Gehrig singled to right. Lazzari stopped at second. Rice walked. When the bases were filled, Lary singled to center, scoring Lazzari and Gehrig, and when Metzler fumbled the ball, Rice took third and Lary went to second. Dickey batted for Bengough and Metzler tossed him out, the runners holding the bases. Ruffing singled to left, scoring Rice and Lary. Combs forced Ruffing. Blue to Kress. Blaeholder tossed out Reese.

FOUR RUNS.

FIFTH—BROWNS—Dickey went in to catch for New York. Blue filed to Rice, who made a great running catch. Metzler fanned. Gossin filed to Rice.

NEW YORK—Ruth singled to center. Lazzari was safe on Kress' fumble. Ruth advancing to second. Gehrig singled to right, scoring Ruth. Lazzari was out trying for third, Huntington to O'Rourke to Kress to Metzler to Blaeholder. Gehrig taking second. Rice walked. Blaeholder replaced Blaeholder.

Lary singled to center, scoring Gehrig and putting Rice on third. Dickey's sacrifice fly to Metzler, scored Rice. Ruffing forced Lary. O'Rourke to Metzler. THREE RUNS.

SIXTH—BROWNS—Lary threw out Kress. Badger walked. Metzler singled to center, putting Badger on third. O'Rourke threw Metzler. Lazzari to Lary. Blaeholder scored. Huntington filed to Combs. ONE RUN.

NEW YORK—Combs filed to Metzler. Reese filed to Gossin. Blue struck out.

SEVENTH—BROWNS—Huntington walked. Blaeholder hit to center, scoring Blaeholder. Gehrig to Lary. Metzler fumbled the ball. Rice took third and Lazzari scored. Reese tossed out Gossin.

NEW YORK—Lazzari sent a line fly to Gossin. Gehrig singled to left. Blue filed to Metzler. Lary grounded to Metzler. EIGHTH—BROWNS—Kress

KORAN BREAKS UP MOROCCAN BANDITS

"Stockholders" of Gang,
Alarmed by Holy Man,
Release Frenchman.

By the Associated Press.

OUED ZEM, Morocco, Aug. 9.—Moroccan bandits' respect for the Koran has broken the back of the ransom business. It all happened through the release of Pierre Zuhilaga, a French rancher who was captive for nearly two years in the Upper Atlas mountains. He was held for \$440,000 but was freed without paying a cent.

Now the "stockholders" of the gang that lived on captives have fallen out among themselves and their chief, Bouskri, known as "Stiff Hands," is in flight.

French authorities reasoned that if they allowed the big ransom to be paid, banditry would continue. If they refused—and

liberated Zuhilaga—the practice might be stamped out.

Mohammed Chengulit, Caid of Oued Zem, solved the problem. "I can have him freed," he told the French. He sought out, farther south, the Chief Sheikh Sidi Ali, whose not as a holy man was known in the fastnesses of the Atlas Mountains. The holy man traveled 70 days by camel and afoot to the bandit lair.

"Am I in a religious country where the law is respected?" asked Sidi Ali.

"Yes," answered the head of the bandit group, Bouskri.

"How can I believe you," Sidi Ali exclaimed, indignantly, "since you buy and sell Christians? The Koran forbids such transactions."

Bouskri showed shame to Sidi Ali. The "stockholders" were summoned and with the great sorrow of vanishing dividends in their hearts, they agreed to release Zuhilaga.

The journey back was long. Yet in the end, and with quibbling until the actual delivery of the prisoner, the Frenchman was restored to his wife and six children here.

WOMAN SUFFERER OF RADIUM DISEASE HAS LAW REMOVED

Operation Was Necessary Because
Disease Break Too Easily, Physicians Declare.

NEW YORK, Aug. 9.—Mrs. Helen Tuck, 50 years old, who at one time painted dials for the United States Radium Corporation in Orange, N. J., was taken from her Red Bank (N. J.) home yesterday to a Newark hospital, where surgeons removed her entire lower jaw.

This was necessary because her bones are easily fractured by radium necrosis, Dr. Joseph Kief, Newark surgeon, declared after the operation in the Newark Memorial Hospital. For the rest of her life Mrs. Tuck will be unable to eat solid foods.

Mrs. Tuck and her husband, Walter, have a \$250,000 suit pending against the Radium Corporation because of her illness, which she alleges she contracted as a result of painting the luminous watch dials by first wetting fine paint brushes with her lips. The Tucks have two children.

QUEBEC PUTS BAR ON ALL LOTTERIES AND SWEEPSTAKES

By the Associated Press.

QUEBEC, Que., Aug. 9.—The Provincial Government of Quebec will enforce the law prohibiting lotteries and sweepstakes for charitable purposes or otherwise. It was announced yesterday by Premier Taschereau.

The ruling affects the Army and Navy, the Verdun Veterans and the Dominion Rifle Association lotteries. E. P. Dougherty of Brooklyn, N. Y., recently won \$149,000 in the Army and Navy Derby sweepstakes.

The only exceptions to the ruling will be municipal bazars, authorized by Mayors and issuing prizes of less than \$50. No question of the honesty of the sweepstakes drawings was raised, but it is believed the false use of the names of Canadian organizations in promoting fraudulent lotteries in the United States was responsible for the order. The only comment offered was that the raffish of automobiles in the streets had become a nuisance.

SOVIET TO QUADRUPLE LABOR IN FOUR YEARS

Expects to Recruit 1,000,000
Skilled Workers—435,000
College Men Needed.

By the Associated Press.

MOSCOW, Aug. 9.—Soviet Russia is undertaking to quadruple its supply of native skilled labor within four years.

This campaign has been undertaken because lack of craftsmen, engineers and technicians, to start with, is one of the most serious obstacles to the numerous factories and other enterprises contemplated by the five-year industrialization plan, is proving a heavy drag on the progress of that gigantic scheme.

Importation of many American German and other foreign technicians has failed to overcome the dearth of skilled hands. The foreigners have helped to work out projects and to supervise the building of industrial plants, but their eventual elimination from the country is something else.

The State Planning Commission, a record source of methods, has drawn up a five-year plan on technical education aimed at converting 1,000,000 laborers and peasants into skilled workmen within the time limit. The present chain of universities, technical schools, night schools and factory courses is to be expanded and the radio and movies are to be employed in spreading technical knowledge.

Figures issued by Tass, the official news agency, shows that up to last October 120,000 Russian specialists were engaged in industries under construction. Of this number, 31,452 were university graduates, 35,321 had received a secondary education and 53,225 had gained their skill by experience and had no theoretical training.

The same source states that within four years there must be recruited 435,573 skilled men, of whom 176,430 must be university graduates and 259,143 at least secondary education. It is acknowledged that even this program will not fully meet the needs, being only about two-thirds of the required total. But it is pointed out that it will be a big advance over the present situation.

Soviet authorities say America increased its technical experts by only 50 per cent in the decade 1910-1920, and that Germany took almost 30 years to quadruple the number of its engineers. Soviet Russia expects to equal this latter mark in four years.

Boy killed by fire truck standing in yard when machine gets out of control.

By the Associated Press.

POPLAR BLUFF, Mo., Aug. 9.—Willbur Cook, 13 years old, son of Mrs. George Cook of Doniphan, Mo., died in a local hospital today from injuries suffered when he was struck by a fire truck at Doniphan yesterday.

Leo Dodd, driver of the truck, said he lost control of the vehicle as it was speeding to a fire. The truck ran into the yard of Pete Brashler, where the boy was standing, knocked him down and wrecked the front porch of the building.

KING GEORGE FULLY RECOVERED

Lord Dawson of Penn. His Physician, So States.

By the Associated Press.

QUEBEC, Aug. 9.—Lord Dawson of Penn., physician to the King, who was here today on a Canadian tour, said that King George had recovered completely from his illness of a year ago and now is in excellent health.

Lord Dawson arrived from England yesterday, accompanied by Lady Dawson and their youngest daughter, Hon. Rosemary Dawson. He plans to visit Montreal, Ottawa, Kingston and Toronto before going to Winnipeg to attend the meeting of the Canadian Medical Association.

GENS' LEAD DROPS TO 5442

220 Precincts in School Superintendent's Race Unreported.

The lead of John Gens of Cape Girardeau over W. E. Smith of Excelsior Springs for the Republican nomination for State Superintendent of Schools was cut to 5442 votes as additional official returns from Tuesday's primary were tabulated today by the Associated Press.

The vote in 4073 of the 4238 precincts in Missouri was: Gens, 103,051; Smith, 97,511; Don Matthews of Sullivan, 62,127.

St. Louisman Dies in Guard's Camp.

NEVADA, Aug. 9.—William Day, 24 years old, of 2009 Olive street, St. Louis, second cook in B Company, 18th Infantry, Missouri National Guard, died in a hospital here yesterday. He was said to have complained of a headache after attending a boxing exhibition Thursday night. Later he was found unconscious. He is survived by his wife, Mrs. Varris Belle Day, of St. Louis.

Gen. Walter Reinhardt Dies.

By the Associated Press.

BERLIN, Aug. 9.—Gen. Walter Reinhardt, First Generalissimo of the Republican Army of Defense, died today. He was 55 years old. The General had also been Secretary of War for the state of Prussia.

FARM BOARD VIEW ON CHANGE IN PACKERS' CONSENT DECREE

Body Thinks Retailing of Meat by
"Big Four" Will Increase
Livestock Sales.

By the Associated Press.

WASHINGTON, Aug. 9.—The "big four" packers have achieved their first victory in a 10-year fight to regain their foothold in the retail meat and grocery trade. On Oct. 7 the Supreme Court of the District of Columbia will hear their application for modification of the consent decree that in 1919 confined their operations almost entirely to the wholesale distribution of meat and meat products.

The Farm Board is one of the staunchest proponents of modification. C. B. Denman, member representing livestock, says the board is concerned only with such modification as will permit the four packers to retail meat. The board believes, he says, that it will increase sales of livestock by stimulating the movement of meats to the consumer.

The packers have a unique system for the distribution of food products, but they are restricted to meats almost exclusively.

Wholesale groups oppose modification as a probable step toward their eventual elimination from the meat trade.

Parties to the decree are Swift & Co., Armour & Co., Wilson & Co., and the Cudahy Packing Co.

TYPE SET BY WIRE FROM ONE
KEYBOARD IN SIX TOWNS

Operator Punches Out Story in
White Plains, N. Y., Transmits
It by Electricity.

By the Associated Press.

WHITE PLAINS, N. Y., Aug. 9.—From a single keyboard in White Plains, Linotype machines were operated in six cities of Westchester County last night.

On a teletypewriter an operator punched out a story which was automatically set up in lines and molded by Linotype machines in six other plants of the Westchester County Publishers, Inc., which publishes seven newspapers in the county.

The teletypewriter is a combination of the Linotype and machines now used by press associations. Combinations of holes, each combination representing a letter or figure, are punched in a heavy composition tape at the master keyboard. This tape, running through a distributor sends electrical impulses over telegraph wires to a receiving set in another city which repunches the letter combinations in tape. This tape then is run through the electric keyboard of the Linotype, causing the keys to be depressed, and releasing the matrices from which the line is molded exactly as it goes into the forms.

DIPLOMAT DIVORCES DAUGHTER OF FRANCIS DUNTON HARRISON

Christian (Channing) Gross, U. S.
Attache in Bern, Charges,
Wife Deserted Him.

By the Associated Press.

CHICAGO, Aug. 9.—Christian (Channing) Gross, U. S. Attache in Bern, Switzerland, has obtained a divorce yesterday from Mrs. Virginia Harrison Gross, on charges of desertion.

Mrs. Gross is a daughter of Francis Dunton Harrison, Governor-General of the Philippines during the Wilson administration. Gross obtained custody of the two children. The daughter, Barbara, 6 years old, was with her father in Chicago. The son, Peter, 7, was with his mother "somewhere in Europe," Gross said. The diplomat, who said his wife abandoned him in Paris in 1926, planned to search for the son before returning to Switzerland.

Post-Dispatch Resort and Travel Bureau

Offers
Helpful Service to
Vacationists

FREE INFORMATION

For free information concerning Hotels, Resorts, Railroads, Steamboats, Air or Bus Transportation, Road Conditions, etc., the public is invited to call at the Post-Dispatch Resort and Travel Bureau in the main office on the first floor of the Post-Dispatch building.

Resort and Travel Literature

Thousands of pieces of informative literature for vacationists have been received by the Post-Dispatch for free distribution to those who may be interested. This descriptive literature is from every section of the United States, parts of Canada and certain foreign countries.

Free Touring Maps

For free distribution the Post-Dispatch has a number of United States Touring Maps showing through Auto routes and a comprehensive mileage chart. Also free are a number of Canadian maps.

Up-to-Date Road Reports

The Post-Dispatch Resort and Travel Bureau receives regularly issued highway bulletins and reports and in addition is constantly in touch with other sources of highway information. The Resort and Travel Bureau of the Post-Dispatch has been giving the public a free information service for a number of years. Last year more than 30,000 persons called upon the Bureau for information or advice. More than 25,000 requests for road information were answered and more than 43,000 pieces of literature were distributed.

St. Louis Vicinity Maps

These St. Louis and vicinity maps show all towns, highways, rivers, smaller streams, lakes, etc., within a radius of 50 miles of St. Louis. Price 20c. By mail 24c.

State Auto Maps

Individual State Maps showing all roads with legends identifying the type of roads. These maps were made for the Post-Dispatch by Rand-McNally & Co. They are sold at 10c each. By mail 12c.

Auto Trails Atlas

This is a 50-page atlas of the United States and Eastern Canada, made for the Post-Dispatch by Rand-McNally & Co. The maps show the number and the condition of the highways with the mileage from town to town. There is valuable touring information and an excellent mileage chart. The price is only 50c. By mail 60c.

St. Louis City Guide

This City Guide Book gives the location of all streets, what street car or bus line to take to go to a given point, locations of churches, hospitals, office buildings, theaters, and a map of St. Louis. The price is 25c or 30c by mail.

St. Louis and Suburban Maps

These maps of St. Louis and suburbs show the streets of St. Louis, East St. Louis, Madison, Venice, Clayton, Ferguson, Kirkwood, Webster Groves and University City. The price is 40c or 45c mailed.

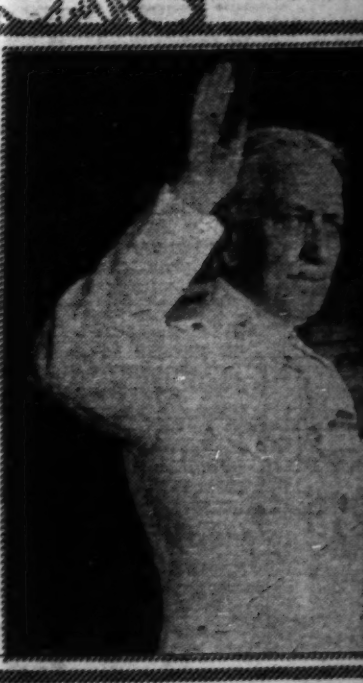

No membership fee is required.

The assistance of the Post-Dispatch Resort and Travel Bureau is a public service open to everybody.

HOOVER IN CAMP PLANS RELIEF FOR DROUTH AREA

Confers With Secretary Hyde and Expects to Have Definite Program to Present to Governor's Conference Thursday.

RED CROSS ISSUES EMERGENCY CALL

C. C. Empowers Railroads to Cut Rates on Necessaries in States in Which 1,000,000 Farm Families Are Affected.

WASHINGTON, Aug. 9.—The usual relaxation at the Hoover Rapidan lodge was conspicuously absent this week-end as the Chief Executive plunged into the details from which next week he expects to develop a program for relief in the drouth area in co-operation with the states and local agencies. The President himself plotted the developments upon maps he took with him from the White House. It was said the President expected to have a definite program ready for presentation to the Governors' Conference on Thursday.

Mr. Hoover was in constant touch with the White House by telephone.

Confers With Hyde.

Late in the day he conferred with Secretary of Agriculture Hyde and James C. Stone, vice chairman of the Federal Farm Board.

Hyde and Stone were called to the camp by Mr. Hoover to discuss the latest developments. Hyde took with him latest reports on the situation from county agents in the drouth regions, while Stone was prepared to give the President a first-hand account of conditions in Kentucky, Southern Indiana and Southern Ohio. They expected to remain overnight.

Stone, a farmer himself, said he was shipping 100 head of heavy cattle to market because no feed was available. Unless rain occurs within 10 days, he predicted only half a normal crop of burley tobacco in Central Kentucky.

The American Red Cross sent a message to its 3500 chapters to "stand by and be ready to act" on call from President Hoover.

Red Cross Call.

J. D. Greaser Jr., assistant director of disaster relief for the Red Cross, said the organization's entire staff of field representatives had been mobilized as a national drouth information bureau and were sending daily reports to headquarters here.

"As you have been informed through the press," the message to the chapters read, "the Red Cross is in close touch with the President on the subject of the extraordinary situation which has arisen in many parts of the country as a result of the unprecedented drouth. He asks that we stand by and be ready to act."

"If the abnormal dry spell continues, condition in a dozen or more states would possibly develop such as is contemplated by our congressional charter which enjoins the Red Cross to carry on national and international relief in time of peace in mitigating suffering caused by pestilence, famine, fire, floods and other national calamities."

"A break in the drouth may still afford relief by partially salvaging food crops, and promoting late planting of quick growing substitutes. If this could not eventuate the Red Cross as the national relief agency will supplement local, state and Federal agencies, public and private, and the normal credit and financial facilities of banks, farm loan groups and similar agencies. As is always the case in Red Cross relief measures, the organization would supplement individual resources and borrowing power in tiding over individual families."

Governors Answer.

Meanwhile, messages of acceptance of President Hoover's invitation to a conference of Governors of the drouth-stricken states here next Thursday began to arrive at the White House. Three of the 12 Governors invited—Hend, Kansas; Farnell, Arkansas; and Cooper, Okla.—replied during the day and others were expected to follow over the week-end.

Gov. Weaver of Nebraska in an
